

Rapid COVID-19 Testing, Diagnostics & Prevention Solutions

TPT MEDTECH

A TPT Global Tech Company

Helping Businesses Get Back to Work

The TPT MedTech **Rapid COVID-19 Testing, Diagnostics & Prevention Solutions** offer the most comprehensive approach to mitigate the risk of spreading **COVID-19** with accurate and timely test results.

Protecting the health and well-being of employees and customers is essential to getting your business back to work and back to normal. A critical component of this is to reduce the risk of spreading the COVID-19 virus and to offer the most timely and effective solutions for testing. Implementing a comprehensive diagnostics and prevention plan is the optimal way to achieve this goal. Our on-site rapid testing and laboratory solutions can quickly mitigate the risk of spreading the COVID-19 virus.

At TPT Med Tech, we offer a multileveled approach to address the complex safety needs of businesses during these uncertain times. We offer the most comprehensive and affordable solutions, combining on-site and off-site testing and laboratory services to help your company protect its most important assets... its employees and customers.

QuikLAB™

RAPID COVID-19 TESTING

The **TPT MedTech QuikLAB™** is a CLIA Certified Lab designed and manufactured to provide on-site COVID-19 testing services to hospitals, businesses, sporting venues and communities where rapid incremental infrastructure is needed, including during emergency situations like pandemics and other natural disasters.

- RESULTS IN MINUTES!
- A CLIA CERTIFIED LAB ON-SITE
- HOSPITAL GRADE FINISHES
- INCREASED SAFETY
- REDUCED LIABILITY

Helping Businesses Get Back to Work

CLIA Certified

SANIQuik™

15- Second Sanitizing System

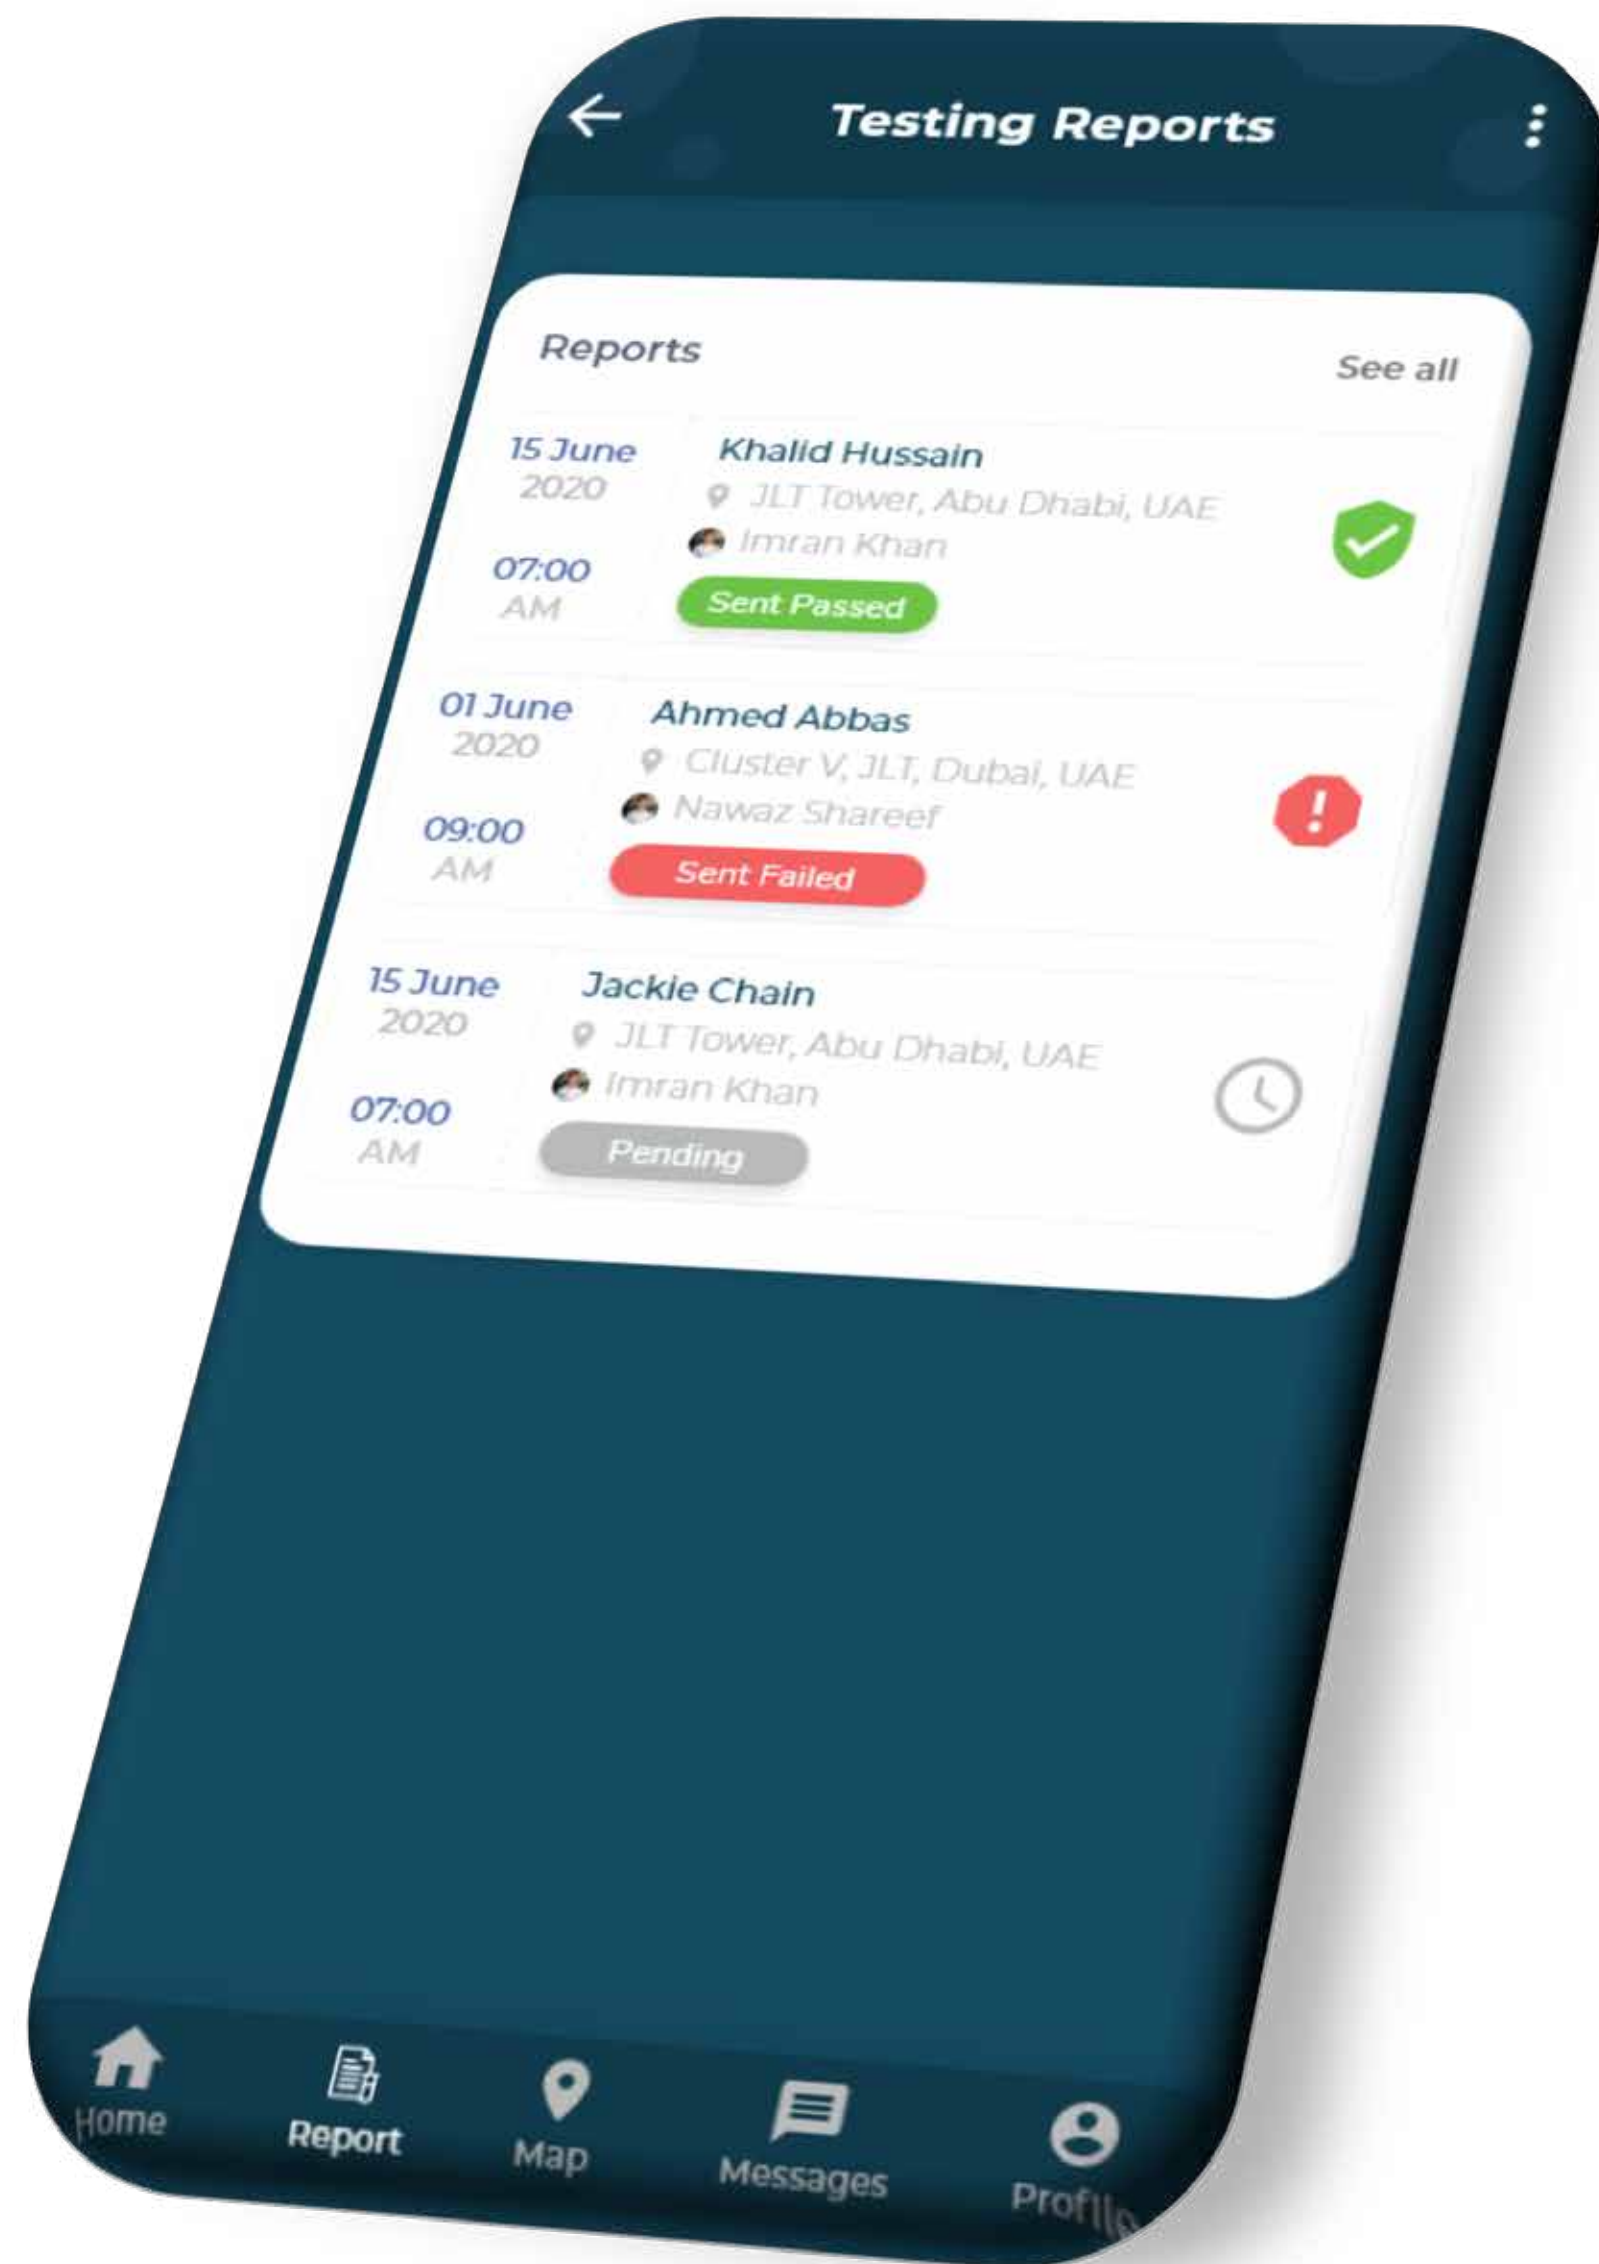

The ultimate solution for creating a safer work environment. Place **SANIQuik™ Sanitizing Units** at all entry points to provide a clear safety barrier prior to access.

SANIQuik™, in conjunction with our QuikLAB™, is recommended for hospitals, long-term care facilities, manufacturing, hospitality, sporting venues, airports, business and government buildings.

- **15-SECOND PASS THROUGH**
- **240 PEOPLE/HOUR**
- **1-SECOND THERMAL SCAN**
- **ORGANIC AND SAFE**

Helping Businesses Get Back to Work

QuikPASS™

Report, Check & Verify System

The **QuikPASS™ Check and Verify system** ties the entire TPT MedTech system together by offering an end-to-end COVID-19 status system that shows the users current positive or negative status.

A QuikPASS™ partner will use the **QuikPASS™ Check and Verify system** to view a users Test Status once the user has given a special 6 digit code present on the QuikPASS™ Report. The report is fully HIPAA Compliant and does not offer the QuikPASS™ agent any personal information. This will present the report with a Valid time frame of use and status.

Helping Businesses Get Back to Work

COVID-19 On-Site Laboratory Solution

Comprehensive On-Site Testing

To meet the special needs of some customers we offer an on-site moderate/high complexity CLIA Certified QuikLAB™ laboratory solution. This service includes the licensing, setup, and management of the laboratory and enables us to process specimens on-site. This unique solution offers more operational control of the testing process and expedited specimen processing.

Benefits of On-Site Testing:

- OPERATION CONTROL
- FAST SPECIMEN TURNAROUND
- CAN EXPAND TESTING CAPABILITIES AS NEEDED
- CONTROL COSTS
- MORE FLEXIBILITY WITH HOURS OF OPERATION
- SETUP AND OPERATIONAL IN 3-6 WEEKS

Helping Businesses Get Back to Work

COVID-19 Expedited Testing Service

At TPT Med Tech, we recognize the need for expedited COVID-19 test results for work related activities, sports programs and travel. To meet the needs of our customers we offer several options for expedited testing. Customers can choose the level of service and processing turnaround time that best accommodates their specific needs and budget. Our system provide test results in minutes instead of days.

Expedited Testing Options:

Antibody Test

A QuikLAB™ Antibody test lets you find out your body's response to COVID-19. With a quick finger-prick test you can determine if your body has produced antibodies to the virus, indicating a past or recent infection.

Antigen Test

A QuikLAB™ Antigen nasal swab test allows for the qualitative detection of COVID-19 antigens, specific viral proteins to the infection.

Molecular Test

Schedule your active infection test at QuikLAB™. QuikLABs' molecular nose swab helps detect the presence of an active coronavirus infection. Ideal for those traveling or requiring health clearance.

Helping Businesses Get Back to Work

COVID-19 On-Site Active Virus Detection

Early detection of COVID-19 is critical to isolated potential spread of infection. Using QuikLAB™ on-site rapid testing technology, we can accurately detect the active COVID-19 virus in just a few minutes. Our systems can also be used to test individuals who are displaying symptoms of other viruses like Influenza and Strep. This active virus detection method offers fast, accurate and affordable results, enabling us to quickly mitigate the risk of these viruses spreading.

Utilizing the on-site, FDA approved Rapid Tests is an affordable and extremely effective method of detecting and preventing the spread of the COVID-19 virus. This testing technology offers a high level of sensitivity and can significantly reduce diagnostic costs by minimizing the need for more costly laboratory testing.

Helping Businesses Get Back to Work

COVID-19 Clinical Support Solutions

To help you maintain a safe and productive work environment during these difficult times, TPT MedTech offers an on-site clinical support solution for COVID-19 compliance, electronic pre-screening, wellness evaluations, rapid testing, and collection of specimens for laboratory processing.

Our experienced staff of physicians, nurse practitioners, registered nurses, physician assistants, and COVID compliance supervisors are focused on the health and well-being of your employees and customers.

Helping Businesses Get Back to Work

COVID-19 Education & Monitoring

We believe an effective educational and monitoring program is essential for reducing the risk of spreading the COVID-19 virus and maintaining a safe environment for businesses, long-term care facilities, sporting venues and the entertainment industry. To maintain the highest level of safety, we offer a comprehensive on-site program which included implementation, training, and monitoring of a set of standardized safety protocols to help prevent the spread of COVID-19 and other viruses.

As the prevalence of COVID-19 diminishes, we will continue to monitor and educate your staff to ensure your organization maintains the most effective plan for mitigating future risks.

Helping Businesses Get Back to Work

COVID-19 Personal Protective Equipment

TPT MedTech offers high-quality and affordable options when it comes to **Personal Protective Equipment (PPE)**. We carry a full line of masks, shields, gloves and sanitizers for both workplace and clinical use.

Helping Businesses Get Back to Work

The well-being of your employees and customers is of the utmost importance to you.

TPT MedTech's timely and reliable solutions can help you create safe environment and get your business **back to work!**

Forward Looking Statements

Certain information set forth in this presentation contains "forward-looking information", including "future oriented financial information" and "financial outlook", under applicable securities laws (collectively referred to herein as forward-looking statements). Except for statements of historical fact, information contained herein constitutes forward-looking statements and includes, but is not limited to, the (i) projected financial performance of the Company; (ii) completion of, and the use of proceeds from, the sale of the shares being offered hereunder; (iii) the expected development of the Company's business, projects and joint ventures; (iv) execution of the Company's vision and growth strategy, including with respect to future M&A activity and global growth; (v) sources and availability of third-party financing for the Company's projects; (vi) completion of the Company's projects that are currently underway, in development or otherwise under consideration; (vi) renewal of the Company's current customer, supplier and other material agreements; and (vii) future liquidity, working capital, and capital requirements. Forward-looking statements are provided to allow potential investors the opportunity to understand management's beliefs and opinions in respect of the future so that they may use such beliefs and opinions as one factor in evaluating an investment.

These statements are not guarantees of future performance and undue reliance should not be placed on them. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause actual performance and financial results in future periods to differ materially from any projections of future performance or result expressed or implied by such forward-looking statements.

Although forward-looking statements contained in this presentation are based upon what management of the Company believes are reasonable assumptions, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change except as required by applicable securities laws. The reader is cautioned not to place undue reliance on forward-looking statements.
